i-NET Menu School Meals
Introduction of a new online ordering and payment system for school lunches

Dear Parents and Students,

At the start of the 2026/27 school year, the ordering and billing process for secondary school students (from grade 5 upwards) at the Adalbert Stifter Community School will be switched to the digital ordering and billing system i-NET-Menue.

With this system, you will be able to order and cancel lunch for your child(ren) online on a daily basis, according to their needs, within the ordering period. Payment will be made via an account of the City of Ulm, to which you as parents must transfer money in advance.

The current direct debit system will be automatically discontinued on July 31, 2026.

Registration in the new system is a prerequisite for children to participate in the school lunch program.

- Please register with i-NET-Menue by September 6, 2026, if possible.
- Detailed instructions are enclosed.

We hope you enjoy using our new cashless ordering and payment system.

With best culinary regards
